LIHIOUEL NADHEM

DEAR HIRING MANAGERS,

With two years of experience in full-stack web and mobile development and systems architecture, I am confident that I will be an excellent fit for Software Developer posts, My experience has provided me with the innovative and technical skills necessary to successfully provide your company with multifaceted technical solutions across a wide range of software platforms

At Declic (declic.tn / Marketing Agency), I am responsible for leading the development of three high-traffic E-commerce websites and mobile electronic management applications that offer more than 400 monthly users and more than 30 clients yearly. I oversee the building of innovative

systems architecture via cross and native frameworks, JAVA, C#,Flutter(dart), JavaScript/C++, MySQL, and more. I was instrumental in structuring several internal systems comprising order entry management tools, conversion revenue reporting, And production workflow tracking, I also successfully collaborate with marketing teams to offer the best user experience to build higher customer lifetime value.

I have refined my strengths through two years of experience in software development, where I provided solutions in database technology, programming, operating systems. The following is a little snapshot of my broader technical skills:

MY EXPERTISE LIES IN THE FOLLOWING TECHNOLOGIES AND FRAMEWORKS:

.NET , ReactJS, Flutter Spring Framework, Django web-framework, ASP.NET, Android, Swift Firebase, SQLite, MySQL, MongoDB, Microsft Azure Java, C#, PHP, JavaScript, CSS3, HTML-5,Python Figma, Mock-up Plus, Visual Paradigm for Prototyping JIRA by Atlassian for project management

- Agile Project Management
- Custom Mobile and Web Applications
- Database Programming
- Designs and illustrations

Sincerely, Nadhem Lihiouel.
